Proceedings of the Seventh International Congress on Invertebrate Reproduction University of California, Santa Cruz, 5-11 August 1995 (Part I: Symposia 1–6)

Contents

Foreword

vii *J. Pearse and H. Laufer*

Symposium 1: Mechanisms of oocyte maturation and fertilization

1 Introduction to the symposium on oocyte maturation and fertilization
J.L. Ram and Motonori Hoshi

7 Calcium regulation and calcium function in the nucleus of starfish oocytes
L. Santella

17 Fertilization and parthenogenesis in *Urechis caupo* (Echiura)
M.C. Gould and J.L. Stephano

23 Mechanisms of activation of surf clam (*Spisula solidissima*) oocytes
F. Dubé

29 Serotonergic mechanisms mediating spawning and oocyte maturation in the zebra mussel, *Dreissena polymorpha*
J.L. Ram, P.P. Fong and K. Kyozuka

39 Reception and transduction of the serotonin signal responsible for oocyte meiosis reinitiation in bivalves
P. Guerrier, Y. Durocher, I. Gobet, C. Leclerc and M. Moreau

47 Biochemical pathways involved in serotonin-regulated *Spisula* oocyte maturation and fertilization
R. Juneja and S.S. Koide

55 Meiosis reinitiation in molluscan oocytes: a model to study the transduction of extracellular signals
S. Krantic and P. Rivailler

71 Regulation of maturation-promoting factor by protein kinase C in *Chaetopterus* oocytes
W.R. Eckberg, M. Johnson and R.E. Palazzo

81 The signal cascade for the activation of protein synthesis during the maturation of starfish oocytes: a role for protein kinase C and homologies with maturation in *Xenopus* and mammalian oocytes
M.B. Hille, Z. Xu and J.N. Dholakia

99 Role of integrins and polyphosphoinositide metabolism during fertilization in sea urchin egg and hamster oocyte
B. Ciapa and C. De Nadai

109 Signal transduction during fertilization: Studies with proteases and heterologous receptors
F.M. Shilling and D.J. Carroll

117 G protein function in starfish oocyte maturation
K. Chiba and M. Hoshi

123 Regulation of the pentose phosphate pathway at fertilization in sea urchin eggs
B.B. Rees, R.R. Swezey, H. Kibak and D. Epel

135 Changes in the spatiotemporal patterns of intracellular calcium transients during starfish early development
S.A. Stricker

153 1-Methyladenine inhibits adenylate cyclase in starfish oocytes
E. Karaseva, N. Lamash and Y. Khotimchenko

Symposium 2: Male reproductive physiology

159 The role of a fatty acid hormone in the reproduction of the polychaete *Arenicola marina* (L.)
M.G. Bentley and J.D. Hardege

167 Copulation in the hermaphroditic snail *Lymnaea stagnalis*: a review
P.A.C.M. de Boer, R.F. Jansen and A. Ter Maat

177 The pubertal molt in Crustacea revisited
J.S.B. Ahl and H. Laufer

181 Action cascade of an insect gonadotropin, testis ecdysiotropin, in male Lepidoptera
M.J. Loeb, R.A. Bell, D.B. Gelman, J. Kochansky, W. Lusby and R.M. Wagner

191 "Male factors" in ticks: their role in feeding and egg development
W.R. Kaufman and L.O. Lomas

199 Male insect accessory glands: functions and control of secretory activity
C. Gillott

Symposium 3: Role of juveniles in life histories

207 Effects of location, exposure and physical structure on juvenile recruitment of the sea urchin *Strongylocentrotus droebachiensis* in the Gulf of Maine
L.G. Harris and C.M. Chester

217 Processes affecting newly-settled juveniles and the consequences to subsequent community development
R.W. Osman and R.B. Whitlatch

Symposium 4: Phylogeny and life history evolution

227 The evolution of mating systems in a group of brooding sea anemones (*Epiactis*)
S. Edmands

Symposium 5: Defense mechanisms of embryos and larvae

239 Chemical defense of embryos and larvae of a West Indian gorgonian coral, *Briareum asbestinum*
C.D. Harvell, J.M. West and C. Griggs

Symposium 6: Gene expression in the follicle cells of insects

249 Hormonal control of the follicular epithelium during vitellogenin uptake
K.V. Davey

255 The vitelline membranes of *Aedes aegypti* and *Drosophila melanogaster*: A comparative review
M.J. Edwards

265 *Bombyx* acid cysteine proteinase
S.Y. Takahashi, Y. Yamamoto, X. Zhao and S. Watabe
